

UI/UX DESIGN with AI

Duration: Part Time: 8 Months X 3 Days/week X 1.5 - 2 Hrs | **Full Time:** 4 Months X 6 Days/week X 1.5-2 Hrs

• **PHOTOSHOP & GIF ANIMATION**

- Layers, Channel, Tools, Color Adjustment, Background Effects, Digital Object Painting
- Retouching Objects, Layer Mask, Vector Mask, Clipping Mask, Quick Mask
- Texture Advance Editing, Portfolio, Book Cover, Flyer, Background Designing By Brush
- Digital Painting, **Social Media Graphics, Framing Insta Reels**, NewsLetter Design
- Creating Web Layouts, Web Graphics, Website Backgrounds, **Thumbnail Design**

• **ILLUSTRATOR**

- Create Digital Illustrations, **Infographics** and Charts, Background Effects
- 3D text effect, Creating Object Palette, 3D Object and Symbol, **Vector Graphics**
- **Design for Animation and Motion** Graphics, Avg filter(intro)

PROJECT

• **An Introduction to HTML, CSS and JavaScript**

PROJECT

- **HTML** Tags, Headings, Lists, Images, Hyperlinks, Frame, Form, Table, Meta tags
- **CSS** Syntax, Text, Backgrounds, Dimension, Border, Block, Image Gallery
- **JavaScript** Variables and Operators, Conditions and Loops, Strings,
 - Functions, Arrays, Validations in javaScript

Use of AI in Designing
(ChatGPT etc)

• **FIGMA**

- Introduction to Figma:
 - Figma Dashboard, Figma Tools, Layers and Pages, The Top bar
 - Design Properties, Prototyping in FIGMA
 - Exercise: Creating a responsive layout
- User Flow
 - Speedup workflow with components, Creating own user flows
 - Creating Wireframe, Home Page, Product Page, Cart Page
 - Linking a Quick User Flow, Working on small interactions
- Spacing and Grids
 - Responsive Grid and Breakpoints, Creating Own Grid in Figma, Grid Guidelines
- Typography in Figma

- Serif, Sans Serif, Display and Mono, Choosing a Typeface
- Creating our own type system
- UI Elements
 - Creating Components, Creating Registration form
 - Responsive Components, Editing Instance
- Visual Assets
 - Photos in Figma, Figma Plugins and Icons, Custom Icons

PROJECT

● **ADOBE XD**

- Creating New Files & Designing on a Grid
 - Setting up Artboards, Importing text, Creating colored backgrounds for text
- Adjusting the Layout for Tablets & Mobile Phones
 - Designing with Bootstrap's grid,
 - Adapting the design for tablets and mobile phones
- Importing & Cropping Photos
 - Importing photos, Crop a photo, Rounding corners
- Importing Vector Graphics, Color Swatches, Shadows
 - Importing & modifying vector graphics, Layer opacity vs. fill opacity,
 - Aligning & distributing layers , Reusing colors (color swatches), Adding a drop shadow
- Creating & Editing Character Style
- Creating a Repeat Grid, *Customizing the content, Adjusting the design*
- Symbols (Reusable Elements)
 - Creating & editing symbols, Detaching from a symbol, Symbols versus Repeat Grids
 - Overriding content in a symbol vs. globally updating all symbols
- Turning a Design into a Clickable Prototype
 - Linking between art boards, Creating an overlay, Previewing the prototype
- Exporting Assets for Web: SVG, JPEG, & PNG
 - Exporting individual assets, Exporting Art boards
- Sharing XD Files (For Review, Developers, etc.)
 - Sharing an XD file, Commenting on shared files
 - Pinning a comment, Updating an existing shared file, Sharing for Development

PROJECT
